Manager (Projects)
For MANAGING DIRECTOR

SPECIFICATION

1. CAST IRON TILES

The tiles shall be manufactured from grey cast iron conforming to IS 210. The tiles shall be sound and uniform casting, free from laps, pin holes or other imperfections and shall be neatly finished. The tiles shall be of the design and weight as shown in the drawing enclosed. The ribs of the tile shall be tapering down with thicker end at tip so that the cementing material filling the hollows between them is held fast and prevented from getting loose on the top. The top surface of the tiles shall be ground smooth on one side while the other side, edges and sides of the hollows shall be left in the rough caste state. (Drg No. KCMMF-WYD-CIT enclosed).

2. CAST IRON FLOOR TRAPS

The traps shall be manufactured from Grey cast iron conforming to IS 210. The trap shall be sound and uniform casting, free from laps, pin holes or other imperfections and shall be neatly finished. The trap shall be of the design and size shown in the drawing enclosed. The trap shall be coated with an approved anti-corrosive treatment. The cladding shall be ground smooth and chromium plated on top and all-round the edge. (Drg No. KCMMF- WYD-CIFT enclosed) .

NOTE:

The successful tenderer shall have to submit 2 samples of each CI tiles and CI trap for approval. After approved one approval sample will be retained and sent to site and one shall be returned to the party. This sample for approval shall be submitted within 15 days from the date of placement of order on party.

Weight of 300 x 300 x 16 mm Tile should be 4.80 Kgs and that of 300x 300 x 16mm Tile should be 2.50 Kgs.
